The Club Membership was so successful when we launched it in 2024 that we are offering this again in 2025. The Club Membership is a minimum of three (3) Members from the same Club, anchored with one Superintendent member and includes either two Assistants or one Assistant and one Equipment Technician or any combination of those two categories. This is designed to provide savings for courses with three or more staff at a cost of only \$1,210. This is a minimum savings of \$50. Save even more by adding additional staff at \$130 each. You will be providing your staff with access to all benefits of a CGSA member except voting rights.
