- Mindfulness Program
- Crisis Management & Trauma-related Services

Mental Health +

We enhanced the EFAP by adding services that provide a connected and stepped care approach to mental health from prevention to treatment.

Mental Health Coach is personalized coaching that helps empower employees to take control of their mental health and build lasting habits and is a cost effective, first step in accessing appropriate treatment. This program includes a clinically validated health assessment with a personalized action plan and ongoing support from a dedicated Coach.

Guided iCBT helps clients change the way they feel by changing the way they think and how they behave. Guided iCBT is personalized therapy, leveraging unlimited confidential asynchronous messaging with a therapist and high-quality clinical content online to build skills and better manage a variety of mental health conditions.
