

Here are some of successes we accomplished in the 2022-2023 membership year:

- We held our first in-person conference which took place in Vancouver after three long years.
- We ended the year with a surplus; marking the sixth year of positive year end results.
- After more than fifteen years, CGSA conducted the most comprehensive Canadian Golf Maintenance Department Compensation Study and given the very competitive labour market; CGSA provided the full results to Superintendent and Assistant members (a value of **\$700**).
- Members saw an average annual savings greater than **\$900** by utilizing the Golfmax Program. This saved more than the cost of their memberships.
- We listened to you and CGSA is now offering a new “add on” to your membership benefits. For the low cost of \$40 you have the option to add **HumanaCare CGSA’s Member and Family Assistance Program** to your renewal (under MEMBERSHIP ADDONS).
