

Fort McMurray Fires

The CGSA is sending heartfelt thoughts to those in the Fort McMurray area. We are currently working to see what assistance we can provide to those in the community and the golf industry.

CGSA has reached out to some of our members in the affected area who have indicated they are safe. We will continue to be in contact and provide support as we are able.

We would like to encourage those who are able to donate to the Red Cross (by going to www.redcross.ca). The Government of Canada has also indicated that they will match any donations provided through this fundraising.

We continue to look for methods to assist those affected, including employment or other options and we keep all in our thoughts.
